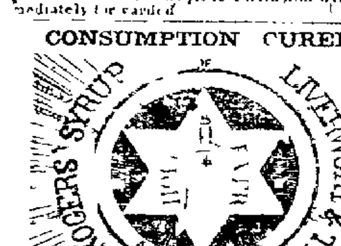
Mr. Elisha Field, Boston, is agent for these papers. Advertisements left with him will be immediately forwarded.

CONSUMPTION CURED!



CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above. A remedy for the *complete cure* of all those affections of the Throat and Lungs which, if neglected, always end in CONSUMPTION. It is not a worthless *catch-penny article* made just *to sell* like many of the common nostrums of the day but it is a strictly *scientific Preparation*—the original recipe having been furnished by an eminent Physician (the late Prof. Rogers) and that still further improved by one of the present proprietors, who is himself a *regularly educated Physician*, a graduate of the University of Penn. It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them entirely new, particularly the CANCHALAGUA, a plant of *most wonderful* medicinal virtues lately introduced into this country from California. The Recipe has been shown to thousands of Physicians who have universally approved of it and will be shown to any Physician who desires to see it upon application either to the Proprietors or their Agents. It has been used in *multitudes of cases* and is strongly recommended by *Physicians*, even *Professors* in our Medical Colleges, Ministers of the Gospel, Judges, Lawyers, Merchants, Mechanics, &c.—a conclusive proof that there is no *quackery* or *deception* about it but that it is a medicine of most uncommon virtue and efficacy.

PAMPHLETS

As no ordinary sized advertisement can *begin* to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form, the *history* of this Medicine—the *description, nature*, &c. of its principal ingredients—the *effect* they are designed to have upon the human system—and [illegible] the single *table* [illegible] which it has done. This design to circulate this pamphlet extensively, but should any one be overlooked, they are earnestly desired to call upon the Agents named below, and procure one *gratis*. The *hints* on page 7th may be worth to yourself or family THOUSANDS OF DOLLARS, and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible.

Such being our confidence in its virtues we are willing to *warrant* the Medicine *in every recent case*, (if used according to the directions) and where the person is not satisfied that he is not deriving benefit from it, by returning the bottle within 24 hours time,

THE MONEY

will be refunded. ☞See page 3d of the Pamphlet.

For sale wholesale and retail by A. L. SCOVILL & CO. Proprietors, at their *Principal Office* No. 65 Warren St. New York, to whom all orders for the Medicine and letters relating to agencies, should be addressed *post paid*.

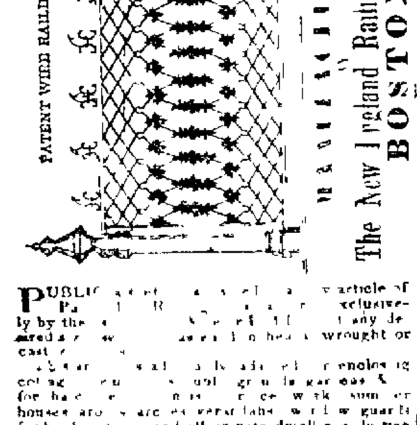
☞Be sure to ask for *Dr. Rogers' Syrup of* LIVERWORT, TAR and CANCHALAGUA, and let no other be palmed on to you.

Caution.—*None genuine* unless there is on the buff wrapper a *note of hand* signed with a *Pen*, by A. L. SCOVILL & CO.

For sale in Bangor, by LADD & INGRAHAM. Also—for sale by G. McFARLAND, SARGENT & EMERSON, H. B. HALL, Bangor, Horace Barker, Orono, R. F. Kins[illegible], Oldtown, A. J. French, Dexter.

PRICE—In large bottles, $1 00, or six bottles for $5 00.

jan 16 1stp3tawd&[illegible]3m



PUBLIC [illegible] article of Pa[illegible] exclusively by the [illegible] any desired [illegible] wrought or cast [illegible] enclosing cottage [illegible] for banks, stores and all private dwellings, lattice work, gratings, skylights, tree boxes, &c. and in fact for all purposes where iron railing is required.

The [illegible] great strength and durability of the Wire Railing, the beauty of its varied ornamental designs, together with the extreme [illegible] are causing it to supersede the cast iron railing wherever their comparative merits have been tested. It is furnished ready for erection in pieces varying from 35 cents to $2,50 per lineal foot.

For further information, patterns of designs &c please address LYMAN & CO, No 4 Albany Block.

A few doors South of Worcester Depot.

. Persons intending to fence their Lots at Mount Hope are requested to postpone the same until early Spring, at which time specimens of this fence will be erected for inspection.

Secured against Gunpowder

..AND...

WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.

[illegible] are the *only Safes* (WILDER'S PATENT) that have in every instance preserved their contents when [illegible] large fires like [illegible] of the [illegible] Tribune [illegible] in New York [illegible] many others, too [illegible] mention. [illegible] above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor at the manufacturers prices by FISKE & DALE

☞**The Following Letter** from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—

BANGOR, Oct 24, 1849

John E. Wilder Esq.—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours; the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the Basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS EDDY

HONEY! HONEY!!

BY BEES FED.

WHO ever supposed that the management of Bees and the making of Honey would be rendered a certain and profitable business? Yet it has been, and can now be done by all wishing to engage in the business.

A citizen of this State has invented a mode of treatment by which Bees can be managed without difficulty and at a small expense, honey made at the rate of from three to four hundred pounds per swarm, each season. The right of adopting and using this mode has been secured by Letters Patent, and the subscriber has purchased that right for the County of Penobscot, so that he now offers the same to others, either by town or individual rights as may best suit purchasers and on such terms as bring it within the reach of all wishing to engage in it.

The advantages gained by this Patent, are—

1st, A perfect command of the Bees and a large increase of the swarms, without the trouble of hiving.

2d A full security against the danger of robbing by neighboring Bees.

3d, The honey is of a better quality and much more in quantity per swarm, than has ever been made by Bees managed in any other manner. This is done by feeding, as by that means the Bees not only rendered independent of flowers for his supplies but able to give his whole time to the work of making and storing his honey.

4th, The opportunity [illegible] afforded of taking the honey at any time without disturbing the Bees.

Lastly, It furnishes a fine opportunity for all professional men of small salary to make a good addition to their income and to aged persons and persons of feeble health to support themselves independently and that with little or no labor.

Such being the advantages gained by this Patent the subscriber recommends it to the public and assures all wishing to purchase that on trial they will find it answering their highest expectations.

His residence is at this place, where he will be happy to answer all those who may address him (post paid) on the subject.

City of Bangor.

In the year of our Lord one thousand eight hundred and fifty

An Ordinance additional to an "Ordinance defining and establishing the boundaries of the several Wards in the city of Bangor,"—ordained March 14, 1846

Sect 1 Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That Wards numbered Five and Six in said city be and they are hereby bounded as hereafter described until otherwise ordained by the City Council to wit

Ward number Five,—Beginning on the northerly line of the city where the stream crosses the same, thence down said stream to the bridge near Pearson & Drummond's Mills, thence from said Bridge in a direct line to where Division Street intersects with the road to Bruce's Mills, thence through Division Street to Centre Street, down Centre Street to Cumberland Street, up Cumberland to Broadway, thence southerly on Broadway to Somerset Street, thence easterly on Somerset Street to Essex Street, thence on Essex Street, southerly to State Street, thence easterly on State Street to the easterly line of the lot belonging to the heirs of the late John Howard, thence on said easterly line and a continuation of the same until it intersects with the new County road to Orono, up said County road to the line of Orono, thence northerly and westerly on said line to the place of beginning, and including lots numbered 42, 43 and 44, on the west side of Kenduskeag stream.

Ward numbered six,—Beginning at the bridge over the Kenduskeag stream at the foot of State Street, thence up said stream to the bridge over the same near Pearson & Drummond's Mills, thence following the southerly line of Ward Five to State Street, thence down State Street to the place of beginning.

Sect 2 Be it further ordained That so much of an ordinance establishing the limits of the several wards in said city as relates to Wards numbered Five and Six passed March 14, 1846 be, and the same is, hereby repealed.

IN BOARD OF ALDERMEN, Feb 2, 1850

This Ordinance having had two several readings passed to be ordained and sent down for concurrence. WILLIAM H MILLS, *Mayor*

IN COMMON COUNCIL, Feb 23 1850

This Ordinance having had two several readings, passed to be ordained in concurrence.

feb 26 EBENEZER FRASK *President*

To Mill Owners.

GENIUS has long been at work to invent some way to save the vast amount of labor and files which it requires to keep gang and single Mill Saws in order. Such a Machine has been invented by D Clark, of Lowell Mass., for which he has received a Patent. It has given perfect satisfaction to all who have used it. A sample may be seen at the City Mills North Bangor (so called) or at C & R HOLYOKE's Store Brewer.

It is recommended to all who wish to avail themselves of such a saving.

See the following certificates

J DYER, Agent for Maine

Brewer, Jan 11, 1850

LOWELL May 23, 1849

To whom it may concern—This certifies that I have used in my Mill during the two past years, one of Clark's Patent Filing Machines during which time I have realized a saving of labor of from thirty to fifty per cent, besides the saving made in using files which has been equal to that of labor, and from my experience in using said Machine I can cheerfully recommend it as in my opinion worthy of the patronage of Mill owners, generally. WM FISKE

To whom it may concern—This certifies that I used, last season two, and I have now in operation at the City Mills (so called) at North Bangor three of Clark's Patent Filing Machines, and believe them to be a saving in labor and files and from my experience, cheerfully recommend them as worthy of the patronage of Mill owners generally.

JOHN FISKE

Having used during the past year, one of Clark's Patent Filing Machines, I fully concur in the above statement. RUFUS DWINEL

2tawd1w & w2w

GREAT IMPROVEMENT IN

Planing, Tongueing, and Grooving Lumber.

JOSEPH P WOODBURY'S

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6,000 feet of boards to any uniform thickness, in one hour producing a better finished surface than it is possible to plane by any other means now known not excepting the hand plane and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid) Boston, Mass.

One of the above Planing Machines may be seen in operation by calling on the Patentee.

JOSEPH P WOODBURY

NOTICE.

BOOK BINDING.

WOULD most respectfully suggest to my friends and those who have usually patronised me, that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery—now called the East Side Book Bindery, at which place I shall stick out a short time, and shall be most extremely happy to see my old friends and customers bringing in their Periodicals, Music, &c. to be bound which shall be done in a neat and faithful manner and as cheap as any other binder in Bangor, if at 12½ cts per vol.

P. S. Prices to correspond with the times, and I defy competition. Come out with your pieces! Specimens of binding can be seen at my Bindery. Orders from the country punctually attended to.

☞My friends and the public generally will please receive my sincere thanks for their patronage during my sojourn in this city.

Yours Respectfully, W L STANWOOD

PATENTS

American and Foreign Office.

AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON

NO 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec of Act of 1837.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of ordering them to the Patent Office, *where by a Patent may be procured the six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and the [illegible]

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. This also has the advantage of *verbally* explaining their inventions and of consulting in respect to them *a matter of paramount importance in order to obtain correct specifications and claims*. The experience of *sixteen years* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects the Patent Laws and patents of different countries, collected through experience [illegible] the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors [illegible] advantages.

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R. H. EDDY, Esq of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents

John S. Sayward.—Editor.

THURSDAY, MARCH 14, 1850.

☞ We commence to-day the publication in our columns of the recent speech of Hon. Daniel Webster, on the subject of slavery. It is a speech of great power and showing the unclouded intellectual clearness which strongly mark all his efforts. No man need mistake his meaning. We have copied every important political speech made by Mr. Webster, for twenty years past, and they have generally given satisfaction to our readers. In the present speech Mr. Webster, differs from the views which many of our readers, in common with ourselves, entertain in reference to the insertion of a provision excluding slavery from the territories in any territorial bill which may be passed. We cannot but feel that had some resolution or law limiting slavery in all prospective acquisition of territory been passed twenty years ago it would have been better for the country.

We cannot but differ with Mr. Webster, in the necessity our country is under of admitting additional slave states carved from Texas, and we cannot but be opposed to this emphatically, when connected with it, is the idea of keeping up perpetually the balance in the South between the Free and the slave states. It is this very political influence of slavery which causes it to be hugged so closely. Divest it of this characteristic and it will gradually pass away.

Mr. Webster's is the leading mind of the country and we regret that all his positions are not such as we can heartily agree with, but upon the great subject now before the country he seems to us willing to concede too much; more than the exigencies, or the real welfare of the country requires.

It seems to be yet left to some man in the senate, perhaps Mr. Seward or perhaps Mr. Corwin to enunciate the sound, clear, everlasting principles of human right and public conduct in this matter; and in the true spirit of accommodation and kindness to yield nobly to questions of time and of form and of expediency, all, except principle which shall peril freedom.

Burglary.

Chs. Hickey was arrested by H. B Farnham, City Marshal, on Tuesday last and examined before Judge Pratt for breaking the store of Daniel Shedd, in Brewer, and stealing therefrom about forty dollars worth of goods a portion of which were recovered by the officer. Hickey was bound over to the next term of the District Court. This is the third time he has been tried for larceny within the past six months and convicted.

☞ The President has tendered to the Hon. R. W. Thompson, of Indiana, the post of Charge d' Affaires at Vienna, to succeed Col. Webb. While a member of Congress, he occupied a place of some distinction, and has always been regarded as a gentleman of cultivation and talent. His acceptance has not yet been signified.

11th inst. which consumed property to the amount of $300,000. The buildings destroyed were in the most beautiful part of the city, and among them were the American Hotel and the Globe Hotel, and the Lafayette street church.

At the city of Camden, in Arkansas, on the 16th. ult., in the 71st year of his age died the Rev. Porter Clay, the last surviving full brother of the Hon. Henry Clay.

☞ The Boston Mail of Tuesday evening, says that more snow fell in Boston on Tuesday morning than has fallen at any one time since the 4th of July last. Appearances indicate that it will leave with the same rapidity it came.

☞ We learn from the Buffalo Commercial Advertiser, that G. V. Brown, Esq., commercial editor of that paper, has been nominated Consul to Tangier in place of Thomas H. Hyatt.

☞ The Washington Republic announces the publication of an edition of Webster's speech, for which they have already received orders for *forty thousand* copies.

☞ A project is before the City Council of Albany, to loan the credit of the city to the amount of $1,000,000, in aid of the construction of the Hudson River Railroad.

☞ We return our thanks to Bryant & Co's Express for Boston papers received yesterday in advance of the mail.

From California.

The following letter received by the parents of the writer, W. H. Farnham, Esq., will be read with much interest by his numerous friends and by the public generally:—

Feather River, (California) Dec. 15, 1849.

Dearest Parents—

Doubtless you have been much surprised at my negligence, as you think it, in writing so rarely, and you have imagined me perhaps sick or regardless of the wishes of my distant friends—such however is not the case. I am in good health as yet, and as anxious to communicate with home, as you are to receive my letters, but situated as we are here, it is impossible to write as often as one wishes, or always to send our letters when written. It is now however a rainy Sabbath—our breakfast of venison and slapjacks has been disposed of, and seated on an india-rubber bag before a smoking fire, with a box for a writing table and a canvass roof between me and the beating rain, I address myself to the pleasant task of writing you an account of my doings and movements since the date of my last. It has been I think, about two months since I wrote last from San Francisco. I should like to go back beyond the date of that communication, and give you the particulars of our tedious and unexpected delay of more than four months in Central America; of our protracted voyage of 77 days up the coast, of our sufferings from want of water and provisions during that never-to-be-forgotten voyage; of our narrow escape during a sudden squall in the night, and of the hot, insufferable calms, which broiled our very brains, and which in our destitute situation were worse than storms. But the incidents of the last two months, with an account of my present situation will more than fill this sheet, and I must reserve the rest for another time. I left San Francisco shortly after the date of my last, for Sacramento City where I arrived after a pleasant trip of six days. I found Sacramento very much like San Francisco crowded and disagreeable. Some [illegible] thousand people were there then whose principal business seemed to be drinking and gambling. The city was built almost entirely of canvass, and in some of the stores, not more than 18 feet by 12, a heavier business was done than in any store in Bangor. I remained there but two days when I left for this place. I came up in a boat, pulling an oar to within 30 miles of here and walking the rest of the way. We were 6 days in the boat, coming about 75 miles, living on hard bread and sleeping on the banks of the river in the open air. Every time we landed we could see crowds of people with loaded teams or mules journeying along the banks of the river, to and from the different mines—all looking weary and way-worn, but most of them full of hope, and confident of realizing the bright dreams which led them so far from home.—We arrived here about the 6th of November, calculating on some 6 weeks of fine weather before the dreaded rainy season would set in. But unfortunately for us, the rain commenced with our arrival, and for more than a fortnight we had but one fair day. Then came a week of alternate storm and sunshine—then a week of unclouded skies, and now we are in the midst of another spell of cold and beating rain. The river is so high during the rainy season that we cannot work to good advantage even in fair weather, still we have improved every working day since we have been here, and considering how few fair days we have had, we have no reason to complain. We came here without provisions, tent or tools, having merely our winter stock of clothing, and some 40 or 50 dollars apiece. We are now well provided with everything we want and have sent money to the city for a winter's supply of provisions. Our daily profits have been all the way from 4 to 15 dollars apiece, and if the water would fall 2 or 3 feet, we could do much better.—There are places within 20 miles of here, where we could take out perhaps 20 or 30 dollars a day, but we cannot reach them with provisions until the rainy season is over, then it is our intention to make for them instanter. No one expects to do much during the rainy season, and if I get safely through the winter, and have five hundred dollars in my pocket in the spring I shall be satisfied. I am in company with five others for the winter. Messrs. Childs and Green of Chelsea, Mass., Williams of Boston, (formerly of Waterville) Cook of Hartford, Ct. and Hayes. Green and Hayes have been gone two weeks to the city after provisions, and are expected back in about a week. We shall then try to get up the river a few miles, but we may not be able to do it. Provisions are very high here, altho' there is no lack of them. To give you an idea of prices I copy a bill which we paid last night to one of the traders:

2 lbs.	Hard Bread,	$3,00
1 "	Tobacco,	1,50
3 "	Pork,	3,75
4 "	Bread,	6,00
2 "	Mackerel,	2,00
5 "	Beans,	1,00
2 "	Sugar,	1,50
20 "	Flour,	25,00
	Total,	$46,75

Everything else is in proportion. Salt 1$ per lb., Saleratus $4, Molasses $8 per gallon, and these prices are rising with every day of rain. Potatoes are selling at $1.50 per lb.—Onions the same. You can readily perceive that a few days of rain, will eat up our earnings very fast. When our provisions arrive however, we shall be our own masters and quit working for the store-keepers. One man a Mr. Bidwell of Ohio, made about $50,000 here last summer, mining and trading. The bar on which we work is named for him, Bidwell's Bar. There are about 2000 people within a mile or two of here, most of whom are about making their board. Some of them of course, are doing better. I find mining pretty hard work, but not so *very hard* as it has been represented. I can stand it from sunrise to sunset with an hour out for dinner, day after day, and not feel [illegible] the morning, go down to work at sunrise, 3 men working with one rocker, one man picks and shovels, one carries dirt, and one rocks the cradle. At noon, we stop an hour for dinner, and at night we stop at sunset and *"pan out."* The process of extracting the gold from the earth is very simple. The gold-rocker is very much like a baby cradle. There is a coarse seive at the head, 3 or 4 inches from the bottom into which the earth is thrown by the pan full—while rocking the machine we throw on water continually to loosen the dirt.—The seive catches the coarse stones which are thrown away. The dirt and gold fall thro' and the lightest part of the dirt passes out over the foot board which is only an inch or two high, while the gold (being the heaviest substance) settles in the bottom of the cradle. We work thus all day, only stirring up the dirt in the bottom occasionally, till night, when one of us takes the mixed dirt and gold out of the rocker into a pan, and pours out or washes the dirt off.

To get a correct idea of the operation, however, you must either come out here or wait till I come home. I shall be well skilled in it by that time, for I intend to work at it a season or two, hit or miss. My hopes of making money here are as strong as ever, my health and spirits are good, and if I don't come home in two years with a competency, then it will be three years before you see

your affectionate son,
HENRY.

SPEECH
OF THE
HON. DANIEL WEBSTER,
ON THE SUBJECT OF SLAVERY.

Delivered in the U. S. Senate, on Thursday, March 7th.

The VICE PRESIDENT. The resolutions submitted by the Senator from Kentucky were made the special order of the day at 12 o'clock. On this subject the Senator from Wisconsin (Mr Walker) has the floor.

Mr WALKER. Mr President this vast audience has not assembled to hear me; and there is but one man, in my opinion, who can assemble such an audience. They expect to hear him, and I feel it my duty, as well as my pleasure, to give the floor therefore to the Senator from Massachusetts. I understand it is immaterial to him upon which of these questions he speaks, and therefore I will not move to postpone the special order.

Mr WEBSTER. I beg to express my obligations to my friend from Wisconsin, (Mr Walker,) as well as to my friend from New York. (Mr Seward) for their courtesy, in allowing me to address the Senate this morning.

Mr President, I wish to speak to day, not as a Massachusetts man, nor as a Northern man, but as an American, and a member of the Senate of the United States. It is fortunate that here is a Senate of the United States; a body not yet moved from its propriety, not lost to a just sense of its own dignity, and its own high responsibilities, and a body to which the country looks with confidence, for wise, moderate, patriotic, and healing counsels. It is not to be denied that we live in the midst of strong agitations, and are surrounded by very considerable dangers to our institutions of government. The imprisoned winds are let loose. The East, the West, the North, and the stormy South, all combine to throw the whole ocean into commotion, to toss its billows to the skies, and to disclose its profoundest depths. I do not affect to regard myself Mr President as holding, or as fit to hold the helm in this combat of the political elements; but I have a duty to perform, and I mean to perform it with fidelity—not without a sense of surrounding dangers, but not without hope. I have a part to act, not for my own security or safety, for I am looking out for no fragment upon which to float away from the wreck, if wreck there must be, but for the good of the whole, and the preservation of the whole, and there is that which will keep me to my duty during this struggle, whether the sun and the stars shall appear or shall not appear for many days. I speak to day for the preservation of the Union. 'Hear me for my cause.' I speak to day out of a solicitous and anxious heart, for the restoration to the country of that quiet and that harmony which make the blessings of this Union so rich and so dear to us all. These are the topics that I propose to myself to discuss; these are the motives, and the sole motives, that influence me in the wish to communicate my opinions to the Senate and the country; and if I can do any thing however little, for the promotion of these ends, I shall have accomplished all that I desire.

Mr President, it may not be amiss to recur very briefly to the events which, equally sudden and extraordinary, have brought the political condition of the country to what it now is. In May, 1846, the United States declared war against Mexico. Her armies, then on the frontiers, entered the provinces of that Republic, met and defeated all her troops; penetrated her mountain passes, and occupied her capital. The marine force of the United States took possession of her forts and her towns on the Atlantic and on the Pacific. In less than two years a treaty was negotiated by which Mexico ceded to the United States a vast territory, extending seven or eight hundred miles along the shores of the Pacific; reaching back over the Mountains, and across the desert and until it joined the frontier of the State of Texas. It so happened that, in the distracted and feeble state of the Mexican Government, before the declaration of war by the United States against Mexico had become known in California, the people of California, under the head of American officers, overthrew the existing Provincial Government of California—the Mexican authorities—and ran up an independent flag. When the news arrived at San Francisco that war had been declared by the United States against Mexico, this independent flag was pulled down and the stars and stripes of this Union hoisted in its stead. So, sir, before the war was over, the powers of the United States, military and naval, had possession of San Francisco and Upper California, and a great rush of emigrants from various parts of the world took place into California in 1846 and 1847. But now, behold another wonder.

In January of 1848 the Mormons, it is said, or some of them, made a discovery, of an extraordinarily rich mine of gold—or, rather, of a very great quantity of gold, hardly fit to be called a mine, for it was spread near the surface—on the lower part of the South or the American branch of the Sacramento. They seem to have attempted to conceal their discovery for some time, but soon another discovery, perhaps of greater importance, was made of gold in another part of the American branch of the Sacramento, and near Sutter's fort, as it is called. The fame of these discoveries spread far and wide. They excited more and more the spirit of emigration towards California, which had already been excited; and persons crowded in hundreds, and flocked towards the Bay of San Francisco. This, as I have said, took place in the winter and spring of 1848. The digging commenced in the spring of that year, and from that time to this, the work of searching for gold has been prosecuted with a success not heretofore known in the history of this globe. We all know, sir, how incredulous the American public was at the accounts which reached us at first of these discoveries; but we all know now that these accounts received, and continue to receive daily confirmation, and down to the present moment I suppose the assurances are as strong, after the experience of these several months of mines of gold apparently inexhaustible in the regions near San Francisco, in California, as they were at any period of the earlier dates of the accounts. It so happened, sir, that, although in the time of peace, it became a very important subject of legislative consideration and legislative decision to provide a proper Territorial Government for California, yet differences of opinion in the counsels of the Government prevented the establishment of any such Territorial Government for California, at the last session of Congress. Under this state of things, the inhabitants of San Francisco and California then amounting to a great number of people—in the summer of last year, thought it to be their duty to establish a local Government. Under the proclamation of General Riley, the people chose delegates to a Convention, that Convention met at Monterey. They formed a constitution for the State of California, and it was adopted by the people of California in their primary assemblages—Desirous of immediate connexion with the United States, its Senators were appointed and Representatives chosen, who have come hither, bringing with them the authentic constitution of the State of California; and they now present themselves, asking in behalf of their State, that the State may be admitted into this Union as one of the United States. This constitution, sir, contains an express prohibition against slavery or involuntary servitude in the State of California. It is said, and I suppose truly, that of the members who composed [illegible] twenty-two were from the non-slaveholding States, and the remaining ten members were either native Californians or old settlers in that country. This prohibition against slavery, it is said, was inserted with entire unanimity.

Mr Hale.—Will the Senator give way until order is restored?

The Vice President. The Sergeant-at-Arms will see that order is restored, and no more persons admitted to the floor.

Mr Cass. I trust the scene of the other day will not be repeated. The Sergeant-at-Arms must display more energy in suppressing this disorder.

Mr Hale. The noise is out side the door.

Mr Webster. And it is this circumstance, sir, the prohibition of slavery by that convention, which has contributed to raise—I do not say it has wholly raised—the dispute as to the propriety of the admission of California into the Union under this constitution not to be denied. Mr President—nobody thinks of denying—that, whatever reasons were assigned at the commencement of the late war with Mexico, it was prosecuted for the purpose of acquisition of territory, and under the alleged argument that the cession of territory was the only form in which proper compensation could be made to the United States by Mexico for the various claims and demands which the people of this country had against that government. At any rate it will be found that President Polk's message at the commencement of the session of December, 1847, avowed that the war was to be prosecuted until some acquisition of territory was made. And, as the acquisition was to be south of the line of the United States, in warm climates and countries, it was naturally, I suppose expected by the South that whatever acquisitions were made in that region would be added to the slaveholding portion of the United States. Events have turned out as was not expected, and that expectation has not been realized, and therefore some degree of disappointment and surprise has resulted, of course. In other words, it is obvious that the question which has so long harassed the country, and at some times very seriously alarmed the minds of wise and good men, has come upon us for a fresh discussion—the question of slavery in these United States.

Now, sir, I propose—perhaps at the expense of some detail and consequent detention of the Senate—to review historically this question of slavery, which, partly in consequence of its own merits, and partly, perhaps mostly, in the manner it is discussed in one and the other portion of the country, has been a source of so much alienation and unkind feeling between the different portions of the Union. We all know, sir, that slavery has existed in the world from time immemorial. There was slavery in the earliest periods of history, in the Oriental nations. There was slavery among the Jews; the theocratic government of that people made no injunction against it. There was slavery among the Greeks, and the ingenious philosophy of the Greeks found, or sought to find, a justification for it exactly upon the grounds which have been assumed for such a justification in this country; that is, a natural and original difference among the races of mankind, the inferiority of the black or colored race, to the white. The Greeks justified their system of slavery upon that ground precisely. They held the African, and in some parts the Asiatic, tribes to be inferior to the white race; but they did not show, I think, by any close process of logic, that, if this were true, the more intelligent and the stronger had therefore a right to subjugate the weaker.

The more manly philosophy and jurisprudence of the Romans placed the justification of slavery on entirely different grounds.

The Roman jurists, from the first and down to the fall of the empire, admitted that slavery was against the natural law, by which as they maintained all men, of whatsoever clime, color or capacity, were equal; but they justified slavery, first, upon the ground and authority of the law of nations—arguing, and arguing truly, that at that day the conventional law of nations admitted that captives in war, whose lives, according to the notions of the times, were at the absolute disposal of the captors, might, in exchange for exemption from death, be made slaves for life, and that such servitude might descend to their posterity. The jurists of Rome also maintained that by the civil law there might be servitude—slavery personal and hereditary—first, by the voluntary act of an individual who might sell himself into slavery; second, by his being received into a state of slavery by his creditors in satisfaction of a debt; and thirdly, by being placed in a state of servitude or slavery for crime. At the introduction of Christianity into the world the Roman world was full of slaves and I suppose there is to be found no injunction against that relation between man and man in the teachings of the Gospel of Jesus Christ, or of any of his Apostles. The object of the instruction imparted to mankind by the founder of Christianity was to touch the heart, purify the soul, and improve the lives of individual men. That object went directly to the first fountain of all political and all social relations of the human race—the individual heart and mind of man.

Now, sir, upon the general nature and character and influence of slavery, there exists a wide difference between the Northern portion of this country and the Southern. It is said on the one side that, if not the subject of any injunction or direct prohibition in the New Testament, slavery is wrong; that it is founded merely in the right of the strongest; and that it is an oppression, like all unjust wars, like all those conflicts by which a mighty nation subjects a weaker nation to their will; and that slavery, in its nature, whatever may be said of it in the modifications which have taken place, is not in fact according to the meek spirit of the gospel. It is not kindly affectioned, it does not "seek another's and not its own." It does not "let the oppressed go free." These are sentiments that are cherished, and recently with great augmented force, among the people of the Northern States—It has taken hold of the religious sentiment of that part of the country, as it has more or less taken hold of the religious feelings of a considerable portion of mankind. The South, upon the other side, have been accustomed to this relation between the two races all their lives, from their birth; having been taught in general to treat the subjects of this bondage with care and kindness—and I believe, in general, feeling for them great care and kindness—have yet not taken this view of the subject which I have mentioned. There are thousands of religious men, with consciences as tender as any of their brethren at the North, who do not see the unlawfulness of slavery; and there are more thousands perhaps, whatsoever they may think of it in its origin, and as a matter depending upon natural right, yet take things as they are, and finding slavery to be an established relation of the society in which they live, can see no way in which—let their opinions on the abstract question be what they may—it is in the power of the present generation to relieve themselves from this relation. And, in this respect, candor obliges me to say, that I believe they are just as conscientious, many of them, and of the religious people all of them, as they are in the North in holding different opinions.

Why, sir, the honorable Senator from South Carolina, the other day alluded to the great separation of that great religious community, the Methodist Episcopal Church. That separation was brought about by differences of opinion upon this peculiar subject of slavery. I felt great concern as that dispute went on about the result and I was in hopes that the difference of opinion might be adjusted, because I looked upon that religious denomination as one of the great props of religion and morals throughout the whole country, from Maine to Georgia. The result was against my wishes and against my hopes. I have read all their proceedings, and all their arguments, but I have never yet been able to come to the conclusion that there was any real ground for that separation; in other words that no good could be produced by that separation. I must say I think there was some want of candor and charity. Sir, when a question of this kind takes hold of the religious sentiments of mankind, and comes to be discussed in religious assemblies of the clergy and laity, there is always to be expected, or always to be feared, a great degree of excitement. It is in the nature of man, manifested by his whole history, that religious disputes are apt to become warm, and men's strength of conviction is proportionate to their views of the magnitude of the question. In all such disputes there [illegible] sometimes men be found with whom everything [illegible] absolutely wrong or absolutely right. They see the right clearly, they think others ought to see it, and they are disposed to establish a broad line of distinction between what is right and what is wrong. And they are not seldom willing to establish that line upon their own convictions of the truth and the justice of their own opinions; and are willing to mark and guard that line, by placing along it a series of dogmas, as lines of boundary are marked by posts and stones. There are men who, with clear perceptions, as they think, of their own duty, do not see how too hot a pursuit of one duty may involve them in the violation of others, or how too warm an embracement of one truth may lead to a disregard of other truths equally important—As I heard it stated strongly, not many days ago, these persons are disposed to mount upon some particular duty as upon a war horse, and to drive furiously on and upon, and over all other duties that may stand in the way. There are men who, in times of that sort, and disputes of that sort, are of the [illegible] with morals as with mathematics, and they think what is right may be distinguished from what is wrong with the precision of an algebraic equation. They have, therefore, none too much charity towards others who differ from them. They are apt, too, to think that nothing is good but what is perfect, and that there are no compromises or modifications to be made in submission to difference of opinion, or in deference to men's judgment. If their perspicacious vision enables them to detect a spot on the face of the sun, they think that a good reason why the sun should be struck down from heaven. They prefer the chance of running into utter darkness, to living in heavenly light, if that heavenly light be not absolutely without any imperfection. There are impatient men—too impatient always to give heed to the admonition of St Paul, "that we are not to do evil that good may come"—too impatient to wait for the slow progress of moral causes in the improvement of mankind—They do not remember that the doctrines and the miracles of Jesus Christ have, in eighteen hundred years, converted only a small portion of the human race; and among the nations that are converted to Christianity they forget how many vices and crimes public and private, still prevail, and that many of them, public crimes especially, which are offences against the Christian religion pass without exciting particular regret or indignation. Thus wars are waged, and unjust wars. I do not deny that there may be just wars. There certainly are; but it was the remark of an eminent person, not many years ago, on the other side of the Atlantic, that it was one of the greatest reproaches to human nature that wars were sometimes necessary. The defence of nations sometimes causes a war against the injustice of other nations.

Now, sir, in this state of sentiment upon the general nature of slavery, lies the cause of a great portion of those unhappy divisions, exasperations, and reproaches which find vent and support in different parts of the Union. Slavery does exist in the United States. It did exist in the States before the adoption of this Constitution, and at that time.

And now let us consider, sir, for a moment, what was the state of sentiment, North and South, in regard to slavery at the time this Constitution was adopted. A remarkable change has taken place since, but what did the wise and great men of all parts of the country think of slavery?—in what estimation did they hold it then, when this Constitution was adopted? Now, it will be found, sir, if we will carry ourselves by historical research, back to that day, and ascertain men's opinions by authentic records still existing among us, that there was no great diversity of opinion between the North and the South upon the subject of slavery, and it will be found that both parts of the country held it equally an evil, a moral and political evil. It will not be found that either at the North or at the South, there was much, though there was some, invective against slavery, as inhuman and cruel. The great ground of objection to it was political; that it weakened the social fabric; that, taking the place of free labor, society was less strong, and labor was less productive; and therefore we find from all the eminent men of the time the clearest expression of their opinion that slavery was an evil. And they ascribed its existence here, not without truth, and not without some acerbity of temper and force of language, to the injurious policy of the mother country, who, to favor the navigator, had entailed these evils upon the colonies. I need hardly refer, sir, to the publications of the day. They are matters of history on the record. The eminent men, the most eminent men and nearly all the conspicuous politicians of the South, held the same sentiments; that slavery was an evil, a blight, a blast, a mildew, a scourge, and a curse. There are no terms of reprobation of slavery so vehement in the North of that day as in the South. The North was not so much excited against it as the South, and the reason is, I suppose, because there was much less of it at the North and the people did not see, or think they saw, the evils so prominently as they were seen, or thought to be seen at the South.

Then, sir, when this Constitution was framed, this was the light in which the Convention viewed it. The Convention reflected the judgment and sentiments of the great men of the South. A member of the other House, whom I have not the honor to know, in a recent speech, has collected extracts from these public documents. They prove the truth of what I am saying, and the question then was, how to deal with it, and how to deal with it as an evil. Well, they came to this general result. They thought that slavery could not be continued in the country if the importation of slaves were made to cease, and therefore they provided that after a certain period, the importation might be prevented by the act of the new Government. Twenty years was proposed by some gentleman, a Northern gentleman, I think, and many of the Southern gentlemen opposed it as being too long. Mr. Madison especially was something warm against it. He said it would bring too much of this mischief into the country to allow the importation of slaves for such a period. Because we must take along with us, in the whole of this discussion, when we are considering the sentiments and opinions in which this constitutional provision originated, that the conviction of all men was that if the importation of slaves ceased, the white race would multiply faster than the black race, and that slavery would therefore gradually wear out and expire. It may not be improper here to allude to that, I had almost said, celebrated opinion of Mr. Madison. You observe, sir, that the term slave or slavery is not used in the Constitution. The Constitution does not require that "fugitive slaves" shall be delivered up. It requires that "persons bound to service in one State, and escaping into another, shall be delivered up." Mr. Madison opposed the introduction of the term slave or slavery into the Constitution; for he said that he did not wish to see it recognized by the Constitution of the United States of America that there could be property in men. Now, sir, all this took place at the Convention in 1787; but connected with this—concurrent and contemporaneous—is another important transaction not sufficiently attended to. The Convention for framing this Constitution assembled at Philadelphia in May, and sat until September, 1787. During all that time the Congress of the United States was in session at New York. It was a matter of design, as we know, that the Convention should not assemble in the same city where Congress was holding its sessions. Almost all the public men of the country, therefore, of distinction and eminence, were in one or the other of these two assemblies, and I think it happened in some instances that the same gentlemen were members of both. If I mistake not, such was the case of Mr. Rufus King, then a member of Congress from Massachusetts, and at the same time a member of the Convention to frame the Constitution, from that State. Now, it was in the summer of 1787, the very time when the Convention in Philadelphia was framing this Constitution, that the Congress in New York was framing the ordinance of 1787. They passed that ordinance on the 13th of July, 1787, at New York, the very month, perhaps the very day, on which these questions about the importation of slaves and the character of slavery were debated in the Convention at Philadelphia. And, so far as we can now learn, there was a perfect concurrence of opinion between these respective bodies; and it resulted in this ordinance of 1787, excluding slavery as applied to all the territory over which the Congress of the United States had jurisdiction, and that was all the territory northwest of the Ohio. Three years before, Virginia and other States had made a cession of that great territory to the United States. And a most munificent act it was. I never reflect upon it without a disposition to do honor and justice—and justice would be the highest honor—to Virginia for that act of cession of her northwestern territory. I will say, sir, that it is one of her fairest claims to the respect and gratitude of the United States, and that, perhaps it is only second to that other claim which attaches to her; that, from her counsels, and from the intelligence and patriotism of her leading statesmen, proceeded the first idea put into practice for the formation of a general Constitution of the United States. Now, sir, the ordinance of 1787 applies thus to the whole territory over which the Congress of the United States had jurisdiction. It was adopted nearly three years before the Constitution of the United States went into operation, because the ordinance took effect immediately on its passage, while the Constitution of the United States, having been framed, was to be sent to the States to be adopted by their Conventions; and then a Government had to be organized under it. This ordinance, then, was in operation and force when the Constitution was adopted and put in motion, in April, 1789.

Mr. President, three things are quite clear as historical truths. One is, that there was an expectation that on the ceasing of the importation of slaves from Africa, slavery would begin to run out. That was hoped and expected. Another is, that as far as there was any power in Congress to prevent the spread of slavery in the United States, that power was executed in the most absolute manner and to the fullest extent. An honorable member whose health does not allow him to be here to-day—

A Senator. He is here. (Referring to Mr. Calhoun.)

Mr. WEBSTER. I am very happy to hear that he is—may he long be in health and the enjoyment of it to serve his country—said the other day, that he considered this ordinance as the first in the series of measures calculated to enfeeble the South and deprive them of their just participation in the benefits and privileges of this Government. He says very properly that it was done under the old confederation and before this Constitution went into effect, but my present purpose is only to say Mr. President, that it was done with the entire and unanimous concurrence of the South. Why, there it stands! The vote of every State in the Union was unanimous in favor of the ordinance, with the exception of a single individual vote, and that individual vote was a Northern man. But, sir, the ordinance abolishing, or rather prohibiting slavery northwest of the Ohio, has the hand and seal of every Southern member in Congress.—The other, and third clear historical truth is, that the Convention meant to leave slavery in the States, as they found it, entirely under the authority and control of the States.

This was the state of things, sir, and this the state of opinion, under which those very important matters were arranged, and these two important things done; that is the establishment of the Constitution with a recognition of slavery as it existed in the States, and the establishment of the ordinance prohibiting, to the full extent of all territory owned by the United States, the introduction of slavery into those territories, and the leaving to the States all power over slavery, in their own limits. And here, sir, we may pause. We may reflect for a moment upon the entire coincidence and concurrence of sentiment between the North and the South upon these questions at the period of the adoption of the Constitution.—But opinions, sir, have changed—greatly changed—changed North and changed South. Slavery is not regarded in the South now as it was then. I see an honorable member of this body paying me the honor of listening to my remarks; he brings to me, sir, freshly and vividly the sentiments of his great ancestor, so much distinguished in his day and generation, so worthy to be succeeded by so worthy a successor, with all the sentiments he expressed in the Convention at Philadelphia.

(To be continued.)

C. P. FESSENDEN'S
WRITING ACADEMY open day and evening, at No 74 Main Street. Mr. Fessenden, thankful for the flattering patronage bestowed upon him (and having located himself permanently in this city, as a teacher of penmanship) would solicit a continuation of the patronage of all those who wish to acquire an easy, rapid and graceful system of writing, fitted for the counting room, or for ladies in epistolary correspondence. Those wishing to fit themselves to teach, will be fitted upon reasonable terms.
Cards marked to order with neatness and despatch.
Terms—for 12 Lessons,—Gentlemen, $1,50. Ladies, $1,00. Payment in advance. mar 12

CURE FOR WHOOPING COUGH!
At this season of the year, when Whooping Cough is prevalent, every family should be provided with a bottle of DOWN'S ELIXER—which is the surest remedy known for that distressing complaint!
It loosens the Cough, promotes expectoration, soothes the irritated organs of the Lungs and Throat, saves hours of hard coughing, and restores the patient to health in much less time than any other known remedy.
Down's Elixer is also the most effectual known remedy for every species of Cough and Lung Complaint,—[See advertisement in another column.]
Sold by Druggists and dealers in medicine throughout the country. mch1 d&w6w

INFLUENZA, COUGHS, &C.
Those who are troubled with *Coughs, Colds, Influenza*, or any Lung Complaint, would do well to try *Dr. Roger's Syrup of Liverwort, Tar, and Canchalagua*, which breaks up the most distressing Cough in a few hours time. Should it fail to do so, the money will be refunded. ☞ See advertisement in another column.

Terrible disaster—Loss of the Steamer Orville with Fifty lives and $600.000 in money.

NEW YORK, March 13

The Alabama Journal has a full account of the dreadful accident to the steamer Orville.

She was burned about — miles below Montgomery. It is supposed there were 120 persons on board, many of whom leaped into the river and were drowned. Some perished in the flames and others were crushed by the guards falling on them. The Ladies threw themselves into the river. Most of those on board were burned. Mrs Hall with her daughter in her arms was drowned, the Clerk of the boat, Mr Mear in attempting to save her, was nearly drowned. The only article on board that was saved was the bank of Col. Preston. A number of return Californians were on board who lost their all. Col Rodman Price of the U. S. Navy, agent from California, lost his baggage with which were $250,000 belonging to the government.

Mr Maul a returned Californian was very seriously injured. F. H. Baroks of Mobile, rumored to have been lost was saved.

In addition to the money lost by Mr Price there was $10,000 belonging to Mr Knowlton and a large sum in charge of Mr Price was in gold dust in the safe and may be recovered.—The list of passengers is lost, but the Clerk of the boat thinks about 50 lives were lost and $600,000.

Doctor GEORGE GOURLAY,

Homœopathist.

Member of Faculty of Physicians and Surgeons, Glasgow, Scotland —Graduate of Pennsylvania Med College, Philadelphia,

WOULD inform the citizens of Bangor that he has commenced the Practice of Medicine in this city and respectfully tenders them his Professional services

Dr G deems it expedient to state that he has had ample means of acquiring a correct theoretical, as well as a Practical knowledge of Medicine and the Collateral Sciences having been engaged in the actual practice for the twelve years last past besides having spent a series of years in the study of Medicine and Pathology, in several of the most celebrated Medical Institutions in Europe

The Dr trusts, by the faithful discharge of his duties as a Physician, not only to merit but receive a liberal share of public favor and confidence

Great Cough Remedy!!

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING-COUGH AND CONSUMPTION.

This beautiful, agreeable and highly concentrated preparation of the WILD CHERRY is now universally acknowledged to be the only safe cure for complaints of the Lungs and Throat In every case the patient is relieved by its use, if it is used it is persevered in it permanently cures

The Formula for which it is prepared has been laid before the Medical Colleges and a large part of the Medical Profession of the country and they have agreed in a cordial unlimited praise as the most skillful preparation and most efficacious known remedy for diseases of the Lungs and Throat

READ THE FOLLOWING FACTS

Dr Brewster, of Windham Co Conn sends us the following testimony —

Dr J C Ayer—Dear Sir—I enclose you a certificate from Mrs Catharine K Cady, a highly respectable lady of this village wife of Mr Seth Cady Deputy Sheriff, Windham, Co Conn Her case was very severe, and I believe the cure entirely attributable to your attention

W A BREWSTER, M D
West Killingly Ct Sept 28 1848

This may certify that I was afflicted with a very severe cough in the winter of 1848, which threatened to terminate in Consumption I had tried many medicines in vain and was cured by the use of AYER'S CHERRY PECTORAL

DIRECT EVIDENCE

Dr J C Ayer, Lowell—Dear Sir —Feeling under obligations to you for the restoration of my health, I send you a report of my case which you are at liberty to publish for the benefit of others Last autumn I took a bad cold accompanied by a severe cough and made use of many medicines without obtaining relief. I was obliged to give up business frequently raised blood, and could get no sleep at night A friend gave me a bottle of your Cherry Pectoral the use of which I immediately commenced according to directions I have just purchased the fifth bottle and am nearly recovered I now sleep well my cough has ceased and all by the use of your valuable medicine

E S STONE, A M
Principal Mt Hope Seminary

From Dr Bryant Druggist and Post master Chicopee Falls Mass —

Dr J C Ayer—Dear Sir —Enclosed please find remittance for all the Cherry Pectoral last sent me I can unreservedly say that no medicine we sell gives such satisfaction as yours does nor have I ever seen a medicine which cured so many cases of Cough and Lung Complaints Our Physicians are using it extensively in their practice, and with the happiest effect

Truly yours, D M BRYANT

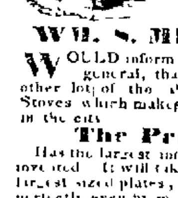
PRIAM OF TROY
AIR-TIGHT
COOKING STOVE
IMPROVED FOR 1849 & 50,



AND combining more advantages for Cooking, than any other Stove ever offered for sale in this Market.

WM. S. MITCHELL & CO

WOULD inform their friends and the public in general, that they have just received another lot of the above justly celebrated Cook Stoves which makes their assortment equal to any in the city

The Priam of Troy!

Has the largest and best oven of any Stove ever invented It will take in from four to ten of the largest sized plates, and it is heated quickly and perfectly even by means of deep hollow grooves in the back and bottom of the oven exposing from three to five hundred square inch s more surface to the fire than can be done by a plain surface—The Stove is so arranged that the wood burns upon a self feeding grate which gives you a clear and brisk fire without being to the trouble of first clearing your fire room at all, and the fire can be preserved as long as in any other Cook Stove
There is a sett of large Iron or Rings connected with the Stove so that our Farmers and all who wish to use large brass or iron Kettles, or any kind of old fashioned Ware, holding from one to ten pails can do it at their pleasure The whole Stove is regulated by means of only one damper is neat in its appearance and in fact is one of the best companions for the kitchen now in use, as thousands who now have them will testify

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the Gospel Banner —

DOWN'S ELIXIR,—A CURE.

BR DREW—Being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR.
I had been troubled some weeks with a severe cold which so affected the vocal organs that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough My appetite failed my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles when I became satisfied that it contained opium making a large amount of physic necessary and also contracting the very organs that should be relaxed I used other kinds of patent medicines but with no good effect Seven weeks I continued gradually to sink under my disease at the expiration of which time, I was extremely weak my skin dry and husky, and my feet and hands cold most of the time I had a dull heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing and low spirits My stomach at this time was so sore and weak, that it was with difficulty I could stand here it This was my situation when I commenced the use of N H DOWN'S ELIXIR—And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach gave me a good appetite, and greatly improved my strength I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed.
I have given it to my children in colds and in a case of measles, and it has proved so, it is recommended to be.
I therefore cheerfully recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, L TUTTLE.
Camden August, 1849
Facts deduced from the foregoing letter
1st Down's Elixir is laxative—acting, costiveness while other medicine increases that difficulty
2d It is perspiratant It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system
3d It removes soreness and weakness from the stomach—gives a good appetite and restores strength to the system
4th It cures colds—is an effectual remedy for the measles and proves ALL IT IS RECOMMENDED TO BE
It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail by the proprietor's prices by DAVID BUGBEE G W LADD CURTIS & PERKINS A P GUILD, WM MANN, G McFARLAND Bangor, J S Smith J W Curtis & Co, Hampden, Chas Johnson, J B Chick, Frankfort H P Field Bucksport, J Hooper, Jr, S P Hatch & Co Castine, B Nourse Geo Parcher Ellsworth, E P Hill & Co Orono, J & R Fisk, H & J Y Richardson, Oldtown, Wm O Poor, Belfast, Chas A Macomber R F Slocomb East Thomaston

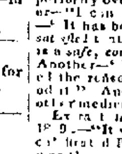
THE VEGETABLE PULMONARY BALSAM

Is the Most Highly Approved and Popular Standard Medicine now in General Use for



COUGHS COLDS AND CONSUMPTIONS, Asthma Pleurisy, Phthisic, Spitting of Blood Hooping Cough Bronchitis, and all Pulmonary Affections and Diseases of the Lungs and Chest
It is thus spoken of by eminent Physicians One says— For the above complaints it is superior to any other preparation used " Another— It has been used with wonderful success, and has a superiority over every kind of medicine used" Another—"I can with confidence recommend " Another—"It has been used with complete success, and I am satisfied that it is a valuable medicine" Another— It is a safe, convenient, and very efficacious medicine"—Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it" Another—"It is equal if not superior to any other medicine within my knowledge"
Extract from a letter dated Dayton, Ill April 13, 1849.—"It was first introduced into our family by a celebrated Physician some ten years ago, and such was the benefit we derived from it that we have not been without it in our house since. I have also recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a single case in which it did not give immediate relief and some were cured after being given up by their Physicians "
☞BEWARE OF COUNTERFEITS AND IMITATIONS, such as Carter's Compound Pulmonary Balsam, American Pulmonary Balsam, and others, in part, bearing the name Enquire for the article by its whole name, the
"VEGETABLE PULMONARY BALSAM,"
and see that it has the written signature of WM JOHN CUTLER upon a yellow label, on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam "
Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents

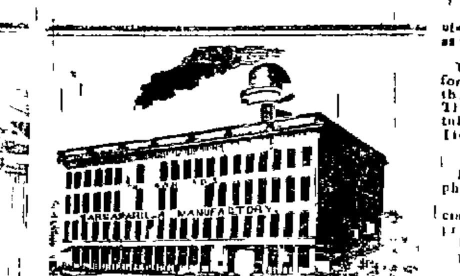
HUME'S HISTORY OF ENGLAND—Vol 5. for sale at GEO. R SMITH & CO'S
dec 28



Dr. Townsend's
COMPOUND EXTRACT OF
SARSAPARILLA,

Wonder and Blessing of the Age
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting, purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person but it creates new pure and rich blood a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition fainting sensations, premature decay and decline hastening toward that fatal disease Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED,

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Cough, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse Expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847.
Dr Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city. I raise no blood, and my cough has left me You can well imagine that I am thankful for these results.
Your obedient servant,
WM RUSSELL, 65 Catharine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues
James Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter
Blackwell's Island, Sept 14, 1847
Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,
JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County.
Fordham, August 13 1847
Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, though we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully,
JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or Involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period "*The turn of life*" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject
It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for Female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Despondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the human face divine, as well as in the garden of richand delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe. This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating
This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c, &c*, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these Mixtures, Pills &c are injurious to females, as they aggravate disease, and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood ... three persons cured in one house is unprecedented.

THREE CHILDREN

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully,
ISAAC W CRAIN 106 Wooster st

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union
This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market
H P PULING, M D,
J WILSON, M D, R B BRIGGS M D,
P E ELMENDORF, M D.
Albany, April 1 1846

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

White's Hair Restorative;
A PURELY VEGETABLE COMPOUND
For Restoring, Beautifying Cleansing Softening, and Dressing THE HAIR

THIS elegant toilet compound is unrivalled in the ... of all other hair preparations and dressing the Hair It prevents the Hair from falling off, promotes its growth removes dandruff, and ... causes it to grow in luxuriance, prevents ... baldness It also removes pain and heat in the head, and is a sovereign remedy for all diseases of the scalp It gives the Hair a brilliant glossy lustre, a silken texture, and a healthy, vigorous appearance, No Lady's toilet can be complete without this indispensable article

RECOMMENDATION
[Certificate of Dr Perry Portsmouth, N H]
Portsmouth, Sept 29 1849
Mr J P Morse, Agent for White's Hair Restorative"
Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several years ago, after a severe fit of sickness, my wife lost all her hair, the scalp appeared dry and the hair grew out thin and one year About two years ago, by another fit of sickness, she lost all her hair a second time, and for a long time there was not any hair at all ... After various applications I was induced to try the above mentioned Restorative and now after the use of a few bottles her hair has grown out to its lustre and its beautiful color as ever Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head and I have found it the best external remedy I have ever tried I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen
Most respectfully yours, &c,

SCROFULA

If thousands of Cures of Scrofula Cancers Syphilis and other impure diseases of the Blood—and if the very SMALL QUANTITY which was used of a Medicine to effect Cures of such Diseases be any proof of the purifying and healing power in the Medicine, which has subdued and conquered such Diseases—then there is unquestionable evidence that—

BRANT'S INDIAN PURIFYING EXTRACT

is such a Medicine in every respect, and there is abundant proof in *great cures* effected, that ONE BOTTLE of it contains *more* purifying healing virtue and *medical power* than there is contained in *four Bottles* of any *sarsaparilla* or any *other medicine* that has ever been offered for sale There is undoubted proof in our pamphlets that by the use of this great *Indian Purifier*, they that were Dying yet Live—they that were Lame and Crippled can now Walk—they that were Sick Scrofulous, and otherwise diseased have been Healed and Cured

Hundreds—Thousands—

who have used Brant's Purifier, after having used and tried ALL the *sarsaparillas* and other medicines recommended to cure blood diseases have *decided* that—

Brant's is the Cheapest,

because *One Bottle* of it has *more* medical curative matter in it and in consequence, cures *more disease* in much *less time* than *one bottle* of any other medicine
If then ONE *Bottle* of Brant's Purifier will cure FOUR TIMES more disease than *one bottle of sarsaparilla* Brant's Purifier would be as cheap at *four dollars* a bottle as a sarsaparilla at *one dollar* But BRANT'S PURIFIER is sold for only ONE DOLLAR a bottle and as a bottle of it *less* cured, and is *capable* of curing *Four Times* as much disease as *one bottle* of *sarsaparilla* the sarsaparilla in consequence of its *less* power and *less* in ... ought to be sold at no more than *Twenty five Cents* per bottle to be as *cheap* as the Purifier at *One Dollar*

One Dollar's Worth

How much Cancer—how much Syphilis—how much Scrofula—will *One Dollar's worth* of Brant's Purifier cure? Read the following statement, which is a specimen of its power

CANCEROUS SCROFULA!

This is the case of a *Dying man* who *yet lives* He was *cured* of a worse case of Scrofula by only *Twelve Bottles* of Brant's Purifier than ever was cured by *twelve Gallons* of the *best sarsaparilla* that was ever made Sarsaparilla has not *sufficient medical power* to effect the cure of such a *revoltingly hopeless* case
Mr J B Haskin of Rome Oneida Co N Y had *Scrofula four years*—was confined to his bed the *last year*—he was so much diseased and debilitated as to be unable to raise his hand to his head He had the *best* medical advice—had used *all* of the *best sarsaparillas* to no avail—got *worse* and *worse* and was considered to be in *a Dying State*, and could not live *twenty four hours* longer, when he commenced using BRANT'S PURIFIER His *neck was eaten nearly off* from *ear to ear*—a *hole* was eaten through his *windpipe* under his chin, so that he breathed through the hole—his *ear* was so eaten around that it could be *lifted up* out of its place, it only holding by a *small piece*—the *use of one arm was destroyed* by two Ulcers—one *Ulcer* under the arm as large as a man's *hand*, had nearly *eaten* through his side *into his body* Thus he was afflicted with *Twenty* such *putrid* and *offensive Ulcers* on various parts of his person For further and full particulars, see our *Pamphlets*
Doct. Thomas Williams one of the most skilful physicians of Rome was called to see Haskin the *day before* he commenced using *Brant's Purifier* Doct W examined him and then told him that *all the medicines in the world* could not *cure* him—that his cure was

Worse than Hopeless!

Now hear Mr HASKIN'S statement of cure He said My wife procured one bottle of *BRANT'S PURIFYING EXTRACT*—THAT BOTTLE enabled me *to get off my bed*—the second bottle enabled me *to get out of the house*—the THIRD enabled me *to walk two miles* and when I had finished using *Nine Bottles* SEVENTEEN out of *Twenty Ulcers* had HEALED UP, and *three bottles* more effected a perfect cure and restored me to *good health*

FOURTEEN WITNESSES!

The above facts are certified to by DOCTOR T WILLIAMS Mr G R BROWN of West Rome Hotel Messrs BISSELL & LEONARD Druggists and ELEVEN other *respectable witnesses* ...

CANCERS CURED.

Mr O B KINNEY, merchant *Clinton Oneida county*, N Y informed us that a cancer-doctor in said county was effecting wonderful cures of CANCERS through the efficacy of "BRANT'S PURIFYING EXTRACT" A *cancer-doctor* in Greene county, N Y, is also using said Purifier Mr A B Settle, druggist, at Canajoharie, Montgomery county, N Y, has informed us of an important *cure of a Cancer* of long standing which was effected on an aged lady of that place If, therefore, this Purifier *cures Cancer* by its purifying, healing power, what impure disease of the blood can it not cure? Seven years' experience and triumph says there are none but what it will cure

FEVER-SORE CURED.

The Rev RICHARD DUNNING, Pastor of the Presbyterian church, Adams Basin, Monroe county, N Y, wrote to us "I have just received a letter from Mr Chauncy Dunning relative to the cure of his Fever-sore You may depend on what it states for he is a Christian man and an elder in the church Some years since he had to have one of his legs *cut off*, to save his life, in consequence of a Fever sore. The other leg being now affected and about to be amputated, I recommended Brant's Medicine. Read the ... He says '*I have used only* THREE BOTTLES *of* BRANT'S MEDICINE *I placed* ALL HOPE, *from your recommendation in the Medicine*, and I can now say that, with the blessing of God, *it has effected a cure of my leg'* See Pamphlets for full particulars

LIVER-COMPLAINT!

Dr NATHAN HUBBARD of *Stamford, Conn*, one of the oldest and most respectable physicians, was afflicted with *Liver Complaint* many years, and was *perfectly cured* by using BRANT'S PURIFYING EXTRACT, We could name hundreds of other cases, also cured

FEMALE WEAKNESSES & COMPLAINTS.

No remedy offered to the public has ever been *half as certain and effectual in restoring* ALL the incidental *weaknesses* and *irregularities* of the sex, as Brant's Pulmonary Balsam It makes no difference whether the derangement be *suppression, excess*, or other *weakness*—It REGULATES ALL, by *strengthening the* SYSTEM, *equalizing the* CIRCULATION, and *soothing and allaying*, NERVOUS IRRITABILITY ☞ See pamphlets

IN CHANGE OF LIFE,

from the *girl* to the *woman*, and the *woman at middle age*—the one case is *accelerated*, and the other so *gradually suppressed*, as to prevent any of the *fatal diseases* that frequently arise in consequence of such change

Dyspepsia—Sour Stomach!

Attica, Genesee Co, *February* 1 1849
"M T WALLACE & CO—*Gentlemen* I was, for more than a year, afflicted with a disease of the stomach could not eat any fat or greasy substance without causing great pain, sickness, and vomiting, and was continually afflicted with a sour stomach I, as an experiment, tried one bottle of BRANT'S MEDICINE, which, to my utter disappointment, *eased and relieved the usual pain after eating* I then fore used a second bottle, which has completely cured the disease I am now well and hearty, and can eat almost any thing without being pained, or the stomach becoming sour
"Yours respectfully, T S WILCOX"
Mr Wilcox is a respectable merchant of Attica

NURSING SORE MOUTH, LEUCORRHŒA, &c

Byron, Genesee Co, N Y, *Oct* 19, 1847
"Messrs M T WALLACE & CO Some time last winter my wife became so debilitated from the effects of *Leucorrhœa* and *Nursing Sore Mouth*, that she could not lift her child or perform any household labor Her medical treatment was varied according to the advice and prescriptions of the most eminent physicians, until *our skill* was exhausted in useless efforts She became so very a skeleton, that at the time she commenced taking *Brant's Medicine* she weighed no more than eighty five pounds, but by the time she had taken *four bottles*, she became perfectly well The cure is so perfect, that she is now enabled to do all necessary household work, and gained thirty pounds of flesh in four weeks
Yours truly, C R GALENTINE"
The reader will observe that Mr Galentine says "*our skill*," He, we are informed by L S Terry, Esq, of the same place, has studied medicine

MERCURIAL DISEASES.

BRANT'S PURIFYING EXTRACT is *a perfect and thorough eradicator of all the effects of* Mercury, or any of the various preparations of Calomel or Mercury, *from the system*, and it restores the *blood, muscles*, and *all the parts diseased*, to their original HEALTHY STATE

GENERAL DEBILITY OF THE SYSTEM!

Mr A HOLTSTANDER, merchant, *Oberlin, Lorrain Co, Ohio*, wrote, December 10, 1843, and after having stated how like a charm the PULMONARY BALSAM had effected the cure of his wife a consumptive cough, said I have personally used *BRANT'S PURIFYING EXTRACT*, for general debility of my system, and I have no hesitation in saying that it is the best medicine to RESTORE and INVIGORATE THE SYSTEM that I have ever used In *every instance* where we have sold BRANT'S MEDICINES, *they have proved their efficacy, and given the* BEST SATISFACTION"

SALT RHEUM,

and all impure *chronic diseases of the* BLOOD, are always cured by *BRANT'S EXTRACT*.

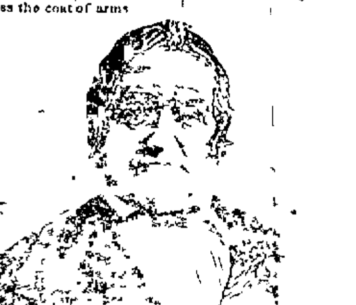
CAUTION EXTRA.

A man by the name of CLAPP has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, denominating it GENUINE Original, etc This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like Yet he assumes the title of Dr for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr Jacob Townsend's Sarsaparilla having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms



Principal Office 102 Nassau St, N Y City

OLD DR. JACOB TOWNSEND
THE ORIGINAL DISCOVERER OF THE
Genuine Townsend Sarsaparilla

Old Dr Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA Being poor, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing many years ago that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration
Unlike young S P Townsend's it improves with age and never changes but for the better because it is prepared on *scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very essential medical properties of the root which give to it all its value
Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the
GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA
This is so prepared that all the inert properties of the Sarsaparilla root are first removed everything capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men, women and children We find it doing wonders in the cure of CONSUMPTION DYSPEPSIA and LIVER COMPLAINT and in RHEUMATISM SCROFULA PILES COSTIVENESS ALL CUTANEOUS ERUPTIONS PIMPLES BLOTCHES and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and cold hands cold chills and hot flashes over the body It has not had its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing strictures of the lungs throat and every other part
But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity* of the menstrual periods and the like, and is as effectual in curing all the forms of the *Kidney Disease*
By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance, Swooning Epileptic Fits Convulsions &c*
It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need?

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of ONE GRAND FACT, that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES; souring, fermenting and blowing the bottles containing it into fragments; the sour acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence, heartburn palpitation of the heart liver complaint diarrhœa dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature
Now is it not horrible to make and sell and infinitely *worse to use* this

SOURING, FERMENTING ACID "COMPOUND" OF S. P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!!
Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND
We wish it understood because it is the *absolute truth*, that S P Townsend's article and OLD Dr Jacob Townsend's Sarsaparilla are *heaven wide apart and infinitely dissimilar* that they are unlike in every particular having not one single thing in common
As S P Townsend is no doctor and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health
But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases
It is to arrest frauds upon the unfortunate to pour balm into wounded humanity, to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience its

Transcendent Power to Heal.

CONSUMPTION CURED!

AND

CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above A remedy for the *complete cure* of all the affections of the throat and lungs which if neglected always end in Consumption It is not a worthless, *catch penny* article, made up to sell like many of the nostrums of the day but it is a strictly *Scientific Preparation*—the original recipe having been furnished by an eminent Physician, (the late Dr A Rogers) and that still further improved by one of the present proprietors who is himself a *regularly educated Physician* graduate of the University of Pennsylvania It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them entirely new particularly the Canchalagua a plant of astonishing *wonderful* medicinal virtues lately introduced into this country from California The Recipe has been shown to thousands of Physicians who have universally approved of it and was shown to any Physician who desires to see it upon application to either the Proprietors or their Agents It has been used in *hundreds of cases* and is strongly recommended by Physicians, even Professors in our Medical Colleges Ministers of the Gospel, Editors, Lawyers Merchants Mechanics &c—a conclusive proof that there is no *quackery* or *deception* about it but that it is a medicine of most uncommon virtue and efficacy

PAMPHLETS

As no ordinary size advertisement can begin to do justice to the merits of this article the Proprietors have embodied in a pamphlet or *Guide to Health* of his Medicine—the description of it &c &c its principal ingredients—the effects they are designed to have upon the human system—and above all the *incalculable amount of good* which it has done. They design to circulate this pamphlet extensively, but still any one not receiving one is earnestly desired to call upon the Agent named below, and procure one gratis The *facts* it contains THOUSAND OF DOLLARS in favor of this ... to a mass of testimony in its favor, which is perfectly reliable
Such being our confidence in its virtues we are willing to a certain extent to test its ... (if ... the ... it ... In two ... fit from it by returning the bottle within a ... time,

THE MONEY

will be refunded [Fully See page 31 of the Pamphlet].
